

# HSIN-YING HUANG

**BONNIE**

## FRONT-END DEVELOPER

### PERSONAL PROFILE

Passionate front-end developer with a self-motivated attitude and organized mind to keep track of my job at all times. Offering communicative and flexible skills to work effectively and with back-end developers and project managers and system analysts.

### WORK EXPERIENCE

#### Front-End Developer

Advanced TEK International Corp | Jun 2020 - present

Advanced TEK International Corp is a management and IT professional consulting service. Developing customized websites and system was our fundamental service and belongs to our team. In our team, I am responsible for front-end development in most cases but also have to develop APIs when necessary.

- Implementing web design and development principles to build stable software.
- Bringing mock-ups to life using HTML, CSS, JavaScript.
- Collaborating closely with the team to support projects during all phases of delivery.
- Building websites and apps that are responsive and usable.
- Maintaining an organized workflow using GitHub.
- Testing to identify bugs and technical issues before and after deploying.
- Documenting bug reports, tickets, and any code changes.

#### Intern of Management Information System Department

Advanced TEK International Corp | Feb 2020 - May 2020

In this four months, I needed to create a shopping website which was a reference for whether I was capable of programmer in this company.

- Application of session is the only one thing I was requested to use in the website.
- At beginning of this project, I need to design a prototype including fundamental function and how many type of users.
- After that, I would consult with the interviews for the needs of users who played by department managers. Therefore, in addition to coding, writing system analysis document was the other job in this project.

#### Intern of Information Technology Department

Sinopac Securities | May 2019 - Dec 2019

Worked in Robot Process Automation (RPA) project team. Contribute to reducing operation time and artificial error in various departments' work.

- Developed on UiPath using Visual Basic.net.
- Communicated with users and realized their needs.
- Debug in users' environment.

### EDUCATION

Bachelor of Information and Computer Science, Soochow University

Sep 2016 - June 2019
